

Aquilla Lake, Tx

U.S. ARMY CORPS OF ENGINEERS

BUILDING STRONG

FACT SHEET as of February 21, 2012

AUTHORIZATION: Flood Control Act of 1968, PL 90-483

TYPE OF PROJECT: Multiple Business Lines

PROJECT PHASE: Operations and Maintenance

CONGRESSIONAL INTEREST: Senators Hutchison (TX) and Cornyn (TX); Representative Flores (TX-17)

NON-FEDERAL SPONSOR: N/A

BACKGROUND: Aquilla Lake is located in Hill County, 0.8 mile southwest of Hillsboro, Texas. The local sponsor for water supply storage is the Brazos River Authority. The project consists of an earthfill dam (104.5 foot high x 11,800 foot long) and uncontrolled concrete spillway 1,200 feet long on left abutment. This creates a lake with total storage capacity of 146,500 acre-feet, flood control of 93,600 acre-feet, water supply of 34,100 acre-feet, and sediment reserve of 25,700 acre-feet. In addition, there are one undeveloped recreation area of 957 acres and 6 access areas totaling 27 acres. Due to the lack of a sponsor to meet PL 89-72 criteria, recreation development is minimal. 2011 visitation totaled 316,781 visitor hours.

STATUS: FY 2011 Activities include routine scheduled O&M activities including required dewater stilling basin, inspection, and repairs.

ISSUES: None

<u>FINANCIAL SUMMARY (\$):</u>	<u>O&M</u>
Federal Cost Estimate	N/A
Non-Federal Cost Estimate	N/A
Total Project Cost	N/A
Allocation thru FY 2010	N/A
