**U.S. ARMY CORPS OF ENGINEERS**

**FACT SHEET as of February 6, 2012**

**BUILDING STRONG®**

**AUTHORIZATION:** The project is not yet authorized for construction.

**TYPE OF PROJECT:** Flood Risk Management

**PROJECT PHASE:** Preconstruction, Engineering and Design (PED)

**CONGRESSIONAL INTEREST:** Senators Hutchison and Cornyn (TX), **Representatives Gonzalez (TX-20)**, Smith (TX-21) and Canseco (TX-23)

**NON-FEDERAL SPONSOR:** San Antonio River Authority

**BACKGROUND:** The Leon Creek study is a multi-purpose study addressing flood risk management, ecosystem restoration and water supply. The study focused primarily on flood risk management and secondly on ecosystem restoration. The project as defined in the Alternative Formulation Briefing documents consists of a levee, quarry detention, and channel modification. Preliminary formulation indicates that there are three possible buyout areas.

**STATUS:** The Leon Creek Interim Feasibility Study Alternative Formulation Briefing (AFB) is scheduled in FY 2012, and the Chief's Report is scheduled for FY 2013.

**ISSUES:** This project is not in the FY 2013 President's Budget. Further delay of construction of the project will continue to put homes and businesses at risk for severe flood damage.
