

U.S. ARMY CORPS OF ENGINEERS

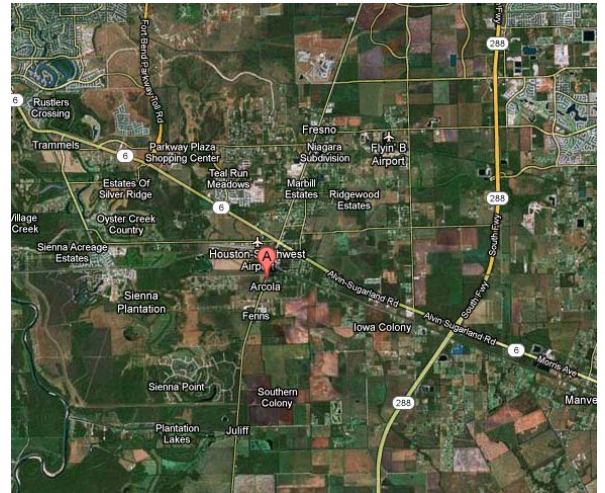

BUILDING STRONG®

FACT SHEET as of February 06, 2012

AUTHORIZATION: Sec 5158 (270) of WRDA 2007

TYPE OF PROJECT: Water Supply

PROJECT PHASE: Construction

CONGRESSIONAL INTEREST: Senators Hutchinson (TX) and Cornyn (TX); Representative **Olson (TX-22)**

NON-FEDERAL SPONSOR: Fort Bend County

BACKGROUND: The project lies south of the City of Houston along the FM 521 corridor east of Missouri City and west of Pearland. It contains the City of Arcola corporate limits and the Fresno area located to the north of Arcola. There are approximately 4,600 acres in the project area. Currently there is no comprehensive system for water supply with the exception of three small water supply companies. The majority of all water is provided by private water wells. The existing wells produce low quality water. Environmental complaints within the Arcola region generally exceed the total complaints received in the remainder of Fort Bend County. Wastewater treatment is generally accomplished through the use of private septic tanks. Unfortunately, lot sizes are often too small to provide adequate drain field area for a proper functioning system.

STATUS: The project was not funded in FY 2011.

ISSUES: The Fort Bend County Health Department reports serious health concerns resulting from low quality water wells and malfunctioning septic systems in the project area.

<u>FINANCIAL SUMMARY (\$):</u>	<u>CONSTRUCTION</u>
Federal Cost Estimate	\$20,000,000
Non-Federal Cost Estimate	6,670,000
Total Project Cost	\$26,670,000
Allocation thru FY 2010	0
ARRA Funding	0
Allocation for FY 2011	0
Allocation for FY 2012	0
President Budget FY 2013	0
Capability for FY 2013	\$20,000,000
Balance to Complete	\$20,000,000

SCHEDULE:

FY 2012 Scheduled Work: Not in the President's FY2012 budget

FY 2013 Budget: Not in the President's FY2013 budget. If funding is received it would be used to initiate and complete construction of sewer and waste water infrastructure near the city of Arcola (\$20,000,000).

COMPLETION: With optimum funding, the project completion date is September of 2014
